4. Site Area		
What is the site area?	5.8	
Scale	hectares	
Does your proposal inv space?	olve the construction of a new building which would resu	ult in the loss or gain of public open
5. Description of t	•	
Protection to the Llvn T	oposed development including any change of use Gegid northern lake embankment, and left bank of the Riv	ver Dee, to allow safe overtopping during the design storm event. This will
include reinforcement of protection on the lake e	of landward embankment faces with a buried 3D geotexti embankment, with additional imported stone material. Als	ile mat ('Enkamat' or similar) and upgrading of existing rip rap upstream slope so, resurfacing of footpath along lake embankment, left (north) bank of River nore overflow car park and enhancements to Penllyn Leisure Centre.
Has the work or change	e of use already started?	☑ Yes ● No
6. Existing Use		
Please describe the cu	rrent use of the site	

6. Existing Use	
Llyn Tegid is a natural lake with approximately 2,950m of embankment at its nort The existing water impounding structures date back to the 1950s and are general consist of 4 large vertical lift gates and an additional smaller gate for fish passage with a masonry weir/spillway acting as the overflow to the system. This allows Lly Dee downstream. Public rights of way (Y Bala Rhif 4 and Y Bala Rhif 1) run along the crest of the eadjacent to the Bala Adventure and Watersports building.	lly earth embankments. Water levels are controlled by the Bala Sluices, which e, and controls the combined outflow from Llyn Tegid and the Afon Tryweryn rn Tegid to be used for flood control (as a reservoir), and to regulate the River
Is the site currently vacant?	⊚ Yes ⊚ No
Does the proposal involve any of the following?	
Land which is known or suspected to be contaminated for all or part of the site	□ Yes
A proposed use that would be particularly vulnerable to the presence of contamin	nation
Application advice	
If you have said Yes to any of the above, you will need to submit an appropr	iate contamination assessment.
Does your proposal involve the construction of a new building?	□ Yes ■ No
7. Materials Does the proposed development require any materials to be used in the build?	⊚ Yes □ No
Please provide a description of existing and proposed materials and finishe material):	s to be used in the build (including type, colour and name for each
Other type of material (e.g. guttering) Stone rip rap along lake embankment	
Description of existing materials and finishes (optional):	Slate rip rap creating a smooth slope on wet side. Grassed embankment on dry side.
Description of proposed materials and finishes:	Rip rap to be replaced with locally imported granite with re-use of slate where suitable, creating a more angular / rough finish as required to improve performance in reducing wave energy. Dry side of embankment will consist of a 3D geotextile membrane installed under the topsoil surface, upon completion the surface will be grassed as existing.
Vehicle access and hard standing	
Description of existing materials and finishes (optional):	Public rights of way along lake and river embankments and permissive footpaths are a mixture of tarmac and unbound stone surfacing. Overflow lakeshore car park is unbound stone.
Description of proposed materials and finishes:	Public rights of way along lake and river embankments and permissive footpaths will be resurfaced throughout with tarmac. Overflow lakeshore car park will be formalised to make a more efficient layout, car parking areas to be unbound stone, remaining areas will be enhanced with planting or left to naturally reinstate to lakeshore habitat.
Are you supplying additional information on submitted plans, drawings or a design. If Yes, please state references for the plans, drawings and/or design and access	
Design and Access Statement (122918-BVL-Z0-RP-I-00008) Location Plan (122918-BVL-Z0-DR-I-10001) Site (Block) Plans (122918-BVL-Z0-DR-I-10002 to 10009)	
8. Pedestrian and Vehicle Access, Roads and Rights of Way	
Is a new or altered vehicle or pedestrian access proposed to or from the public hi	ghway? □ Yes ■ No
Are there any new public roads to be provided within the site?	⊚ Yes ⊚ No

8. Pedestrian and Vehicle Access, Roads and Rights of Way		
Are there any new public rights of way to be provided within or adjacent to the site?	⊋Ye	s No
Do the proposals require any diversions/extinguishments and/or creation of rights of way?	ℚ Ye	s No
Please show details of any existing or proposed rights of way on or adjacent to the site, as your plans or drawings.	well as any alterations to pe	destrian and vehicle access, on
9. Vehicle Parking		
Is vehicle parking relevant to this proposal?	⊚ Ye	s
Please provide information on the existing and proposed number of on-site parking and cy	cling spaces on your plans.	
10. Trees and Hedges		
Are there trees or hedges on the proposed development site?	⊚ Ye	s
And/or: Are there trees or hedges on land adjacent to the proposed development site that could i development or might be important as part of the local landscape character?	nfluence the Ye	s O No
If Yes to either or both of the above, you will need to provide a full tree survey with accomp Your local planning authority should make clear on its website what the survey should cor relation to design, demolition and construction - Recommendations'	panying plan before your app ntain, in accordance with the	lication can be determined. current 'BS5837: Trees in
11. Assessment of Flood Risk		
Is the site within an area at risk of flooding?	⊚ Ye	s
Refer to the Welsh Government's Development Advice Maps website.		
If Yes, and you are proposing a new building or a change of use, please add details of the propos	al in the following table	
Туре	Residential (number of units)	Non-residential (Area of land - hectares)
Floodplain C2	0	0
If the proposed development is within an area at risk of flooding you will need to consider assessment. Refer to Section 6 and 7 and Appendix 1 of Technical Advice Note 15: Develo		ubmit a flood consequences
Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?	⊚ Ye	s
Will the proposal increase the flood risk elsewhere?	ℚ Ye	s No
From 7 January 2019, all new developments of more than 1 dwelling house or where the co Sustainable Drainage Systems (SuDS) for surface water designed and built in accordance Schemes must be approved by your local authority acting in its SuDS Approving Body (SA how to apply.	with the Welsh Ministers' Sta	tutory SuDS Standards. SuDS
How will surface water be disposed of?		
Sustainable drainage system		
✓ Existing water course ✓ Soakaway		
☐ Main sewer		
☐ Pond/lake
